

This is the main user login screen. It is shown upon startup. Each user must have a unique username.

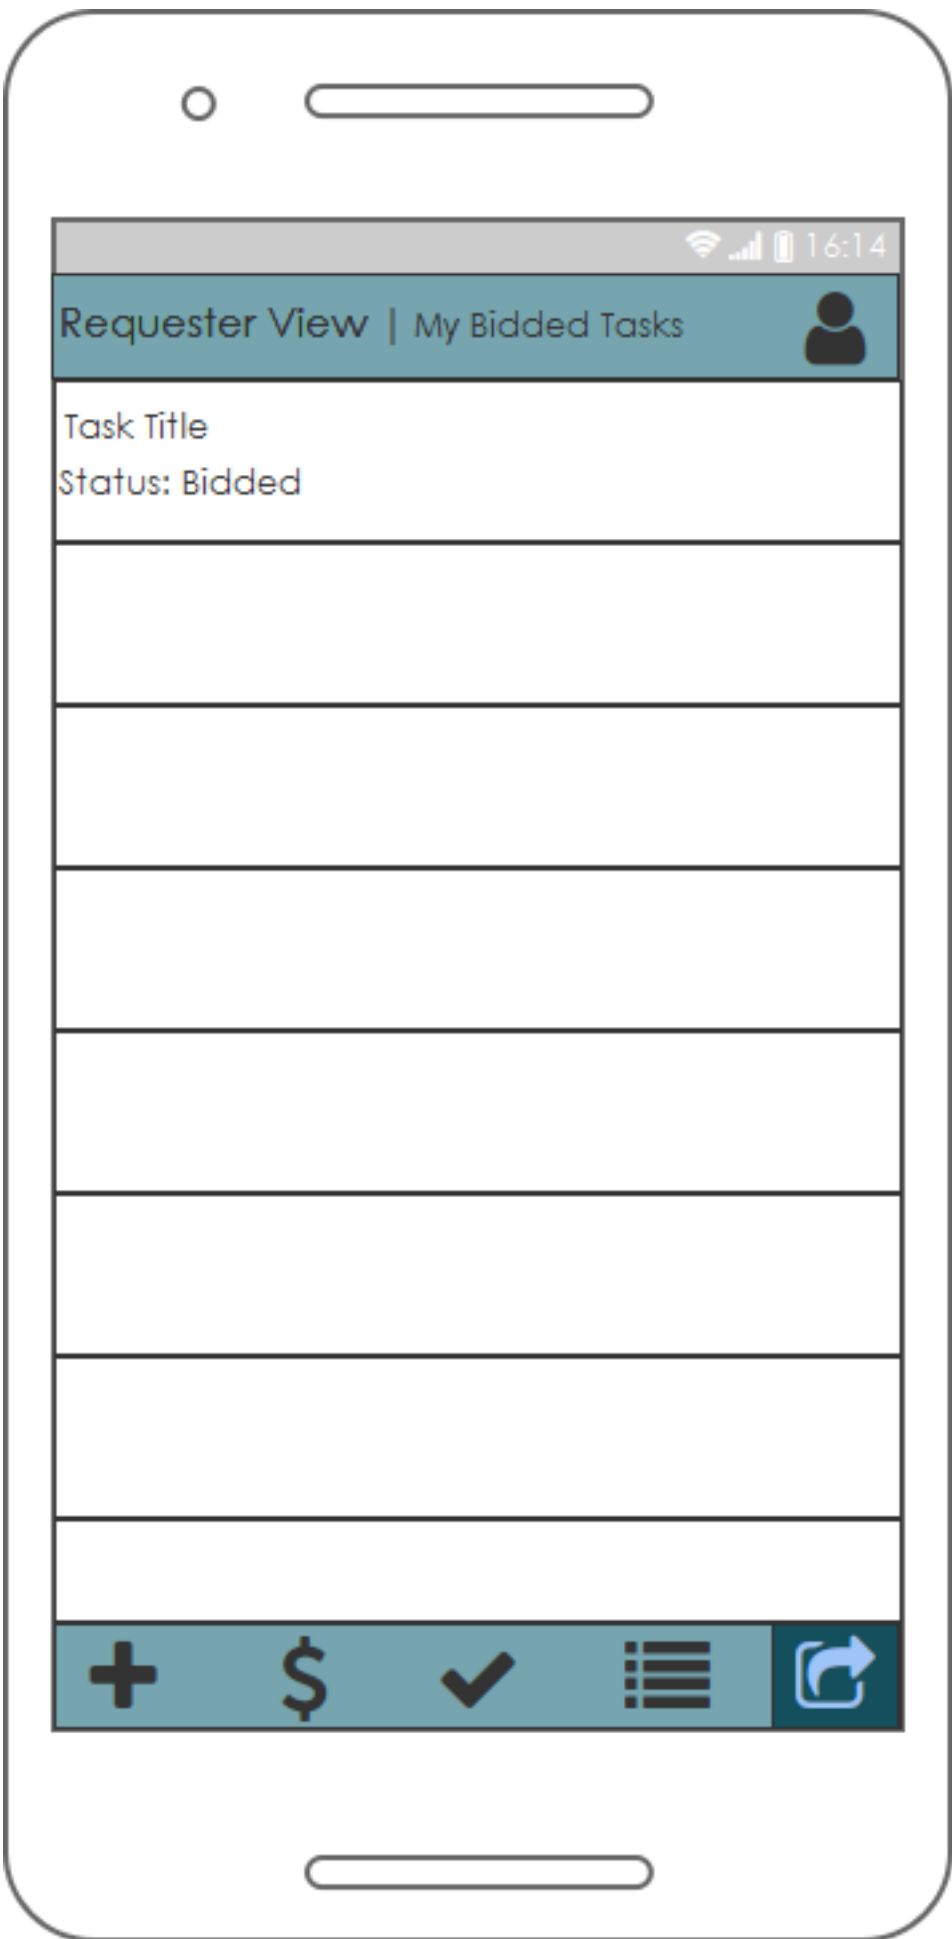

This is the user signup screen. Each user must provide a unique username, their name, e-mail, and phone number.

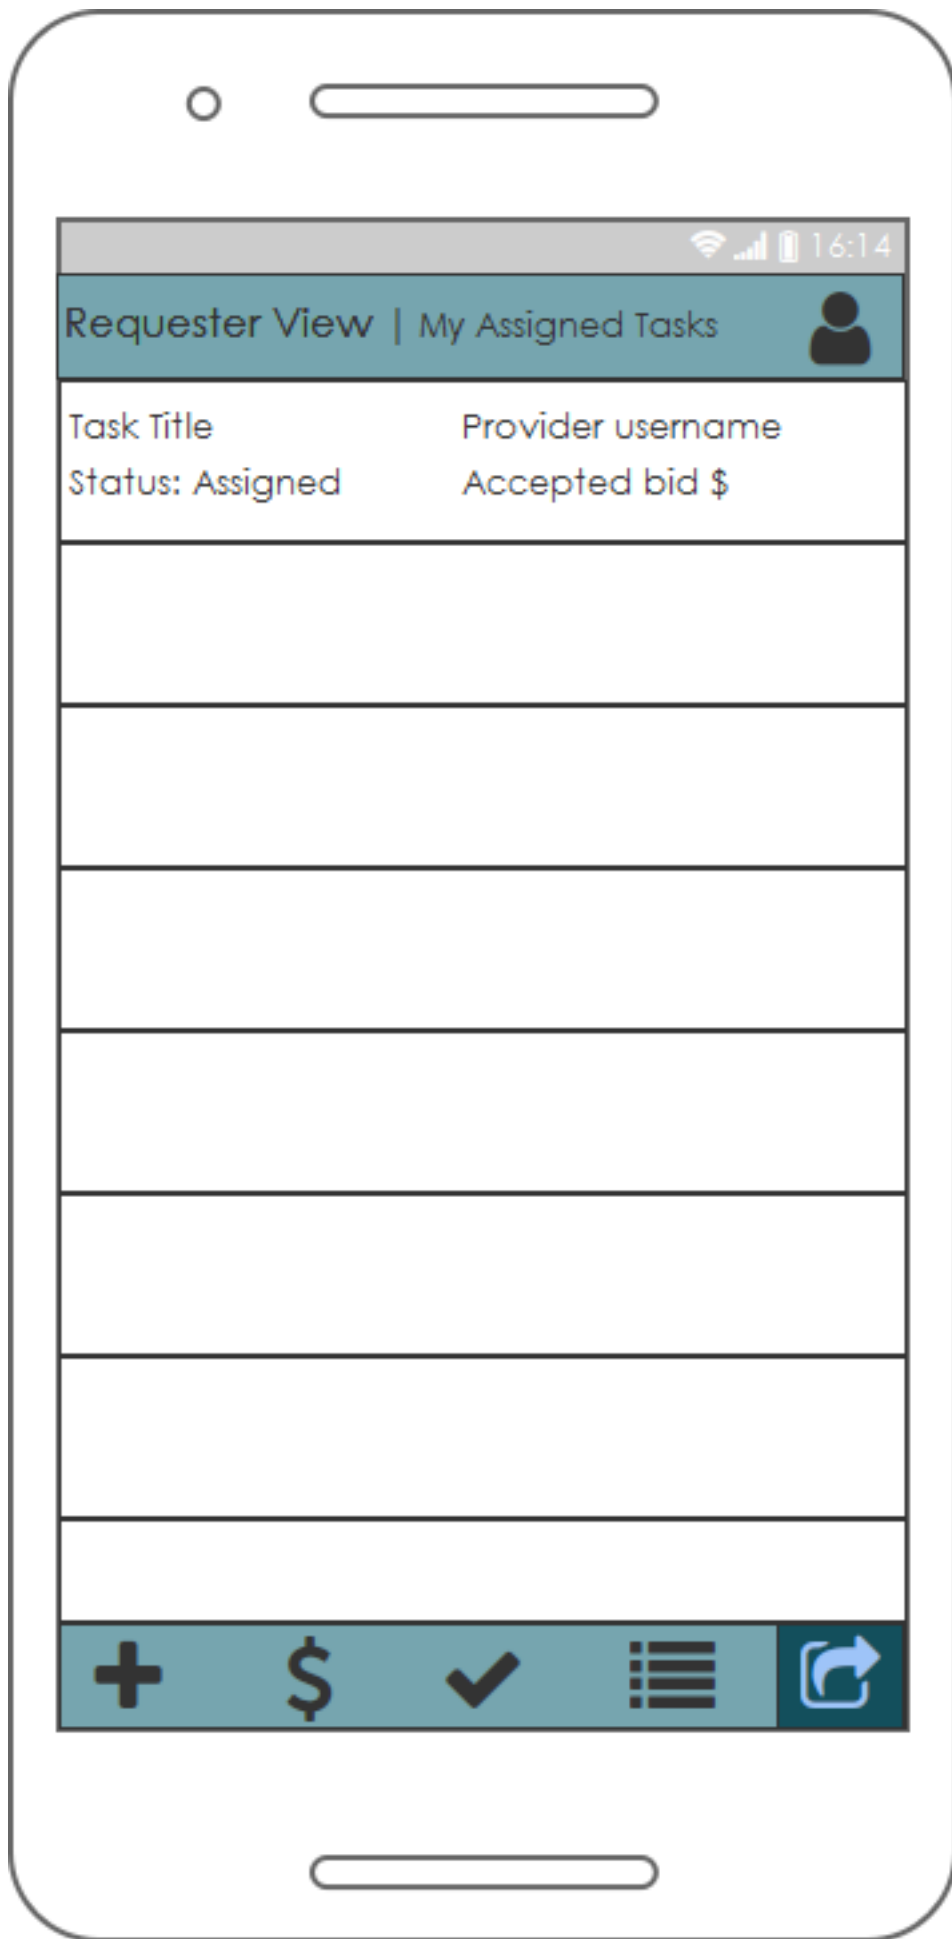

This is the main requester interface, and appears once the user has logged in. This is where any tasks created by the user with the status "Requested" are listed. The bottom navigation directs the user to the "Add Task", "My Bidded Tasks", "My Assigned Tasks", this screen, and the provider interface, respectively. The user icon in the top left allows access to profile functionalities. A requester can also edit or delete a task from here.

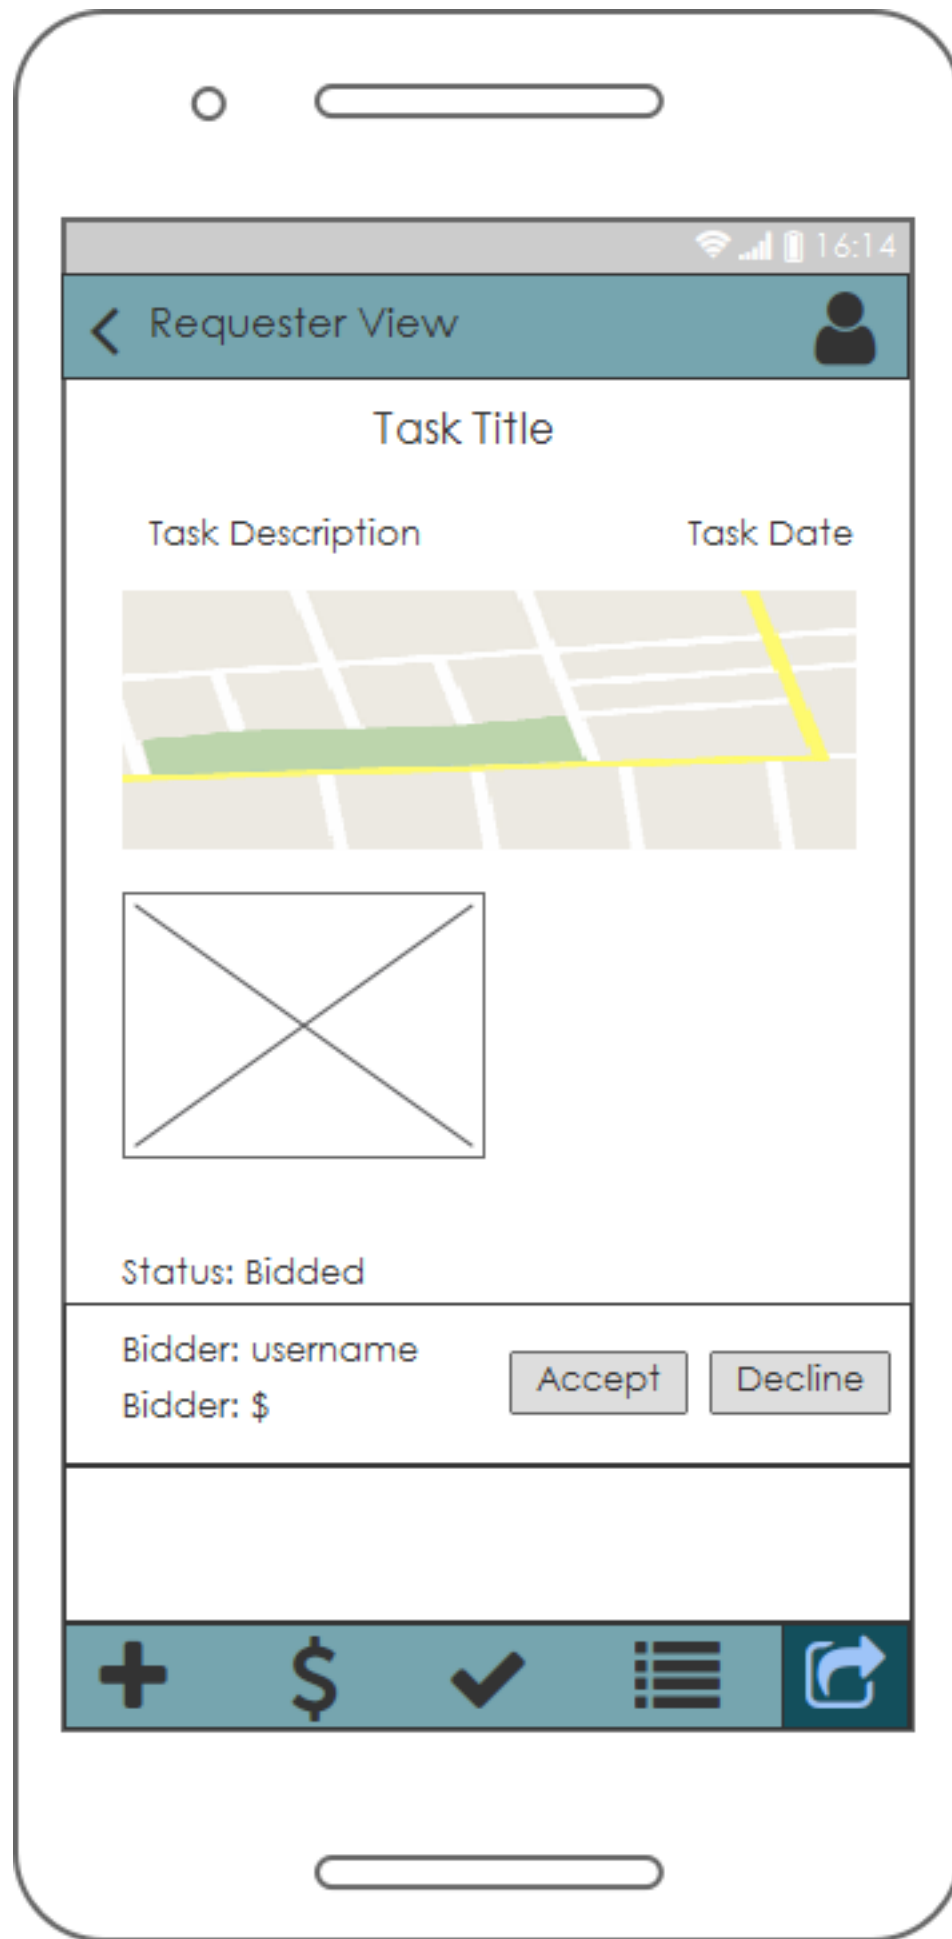

This is the requester's screen to add a task. Each task must have a title under 30 characters, a date of completion and a description under 300 characters. Optionally, a requester may attach one or more photographs, provide an address, or choose a location for their task on the map.

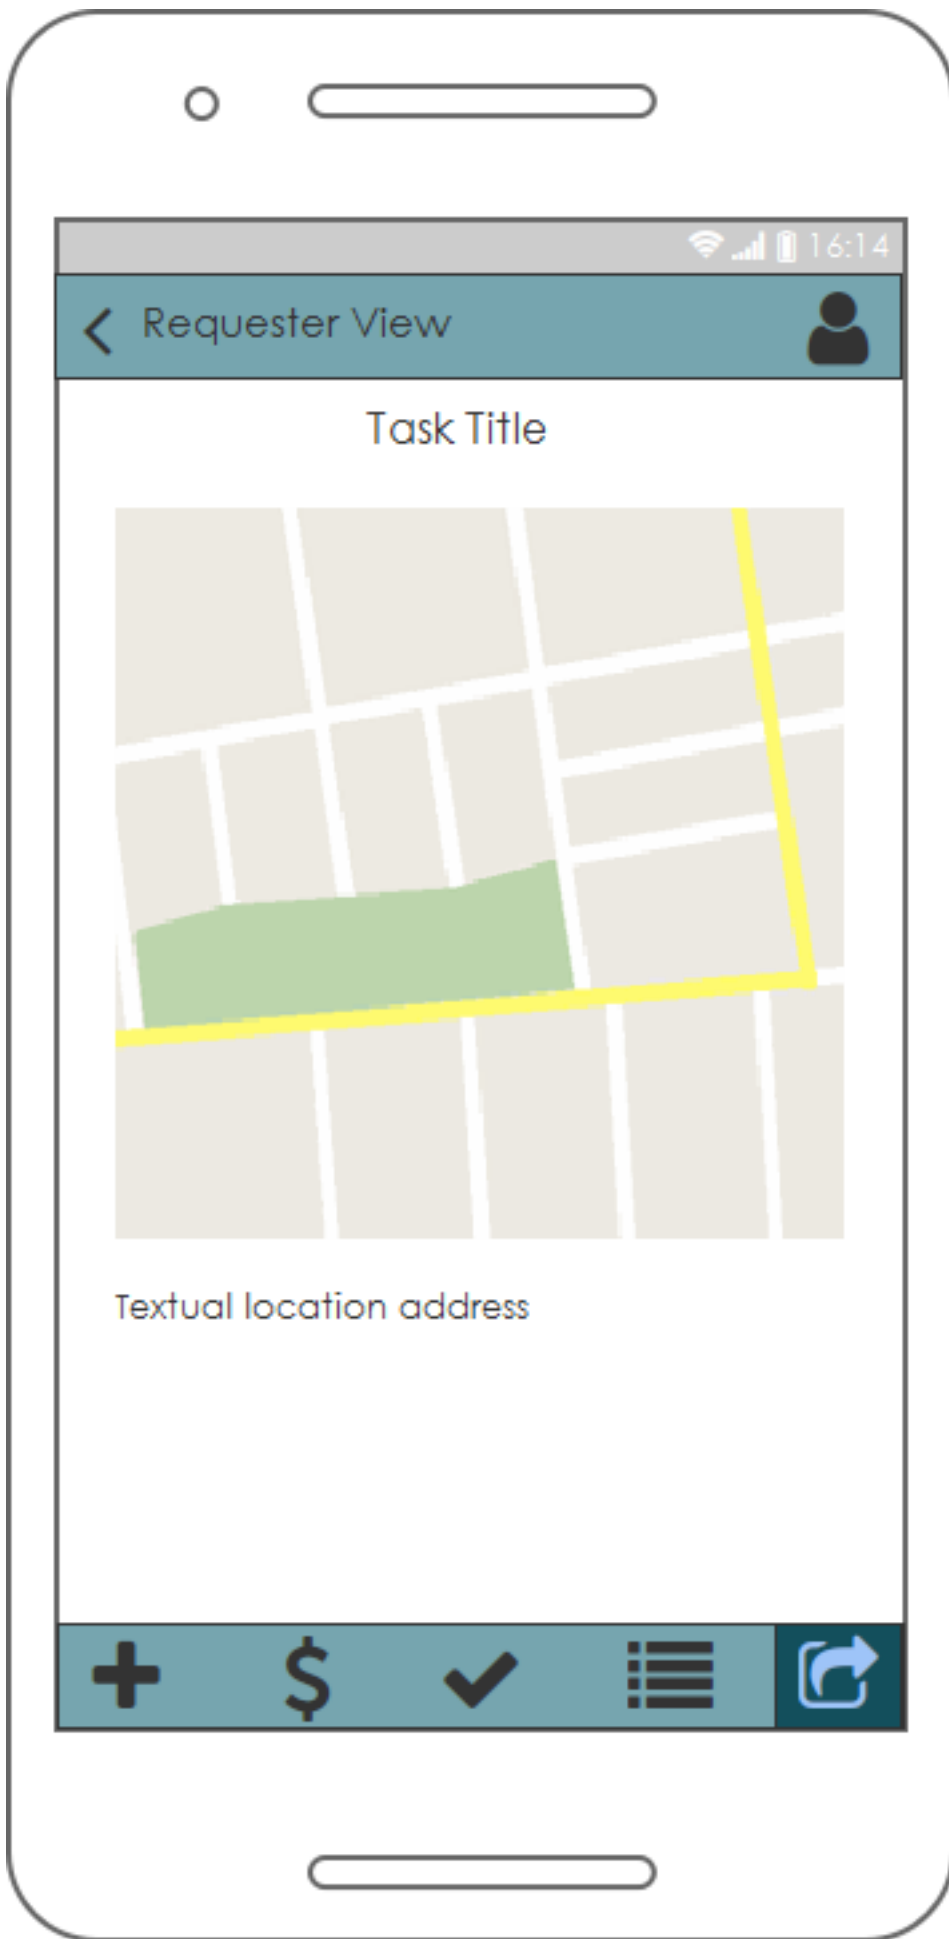

This is the requester's screen to view their tasks which have status: bidded. Tapping on the task in the list view will direct them to the "View Task" screen.

This is the requester's screen to view their tasks which have status: assigned. Tapping on the task in the list view will direct them to the "View Task" screen.

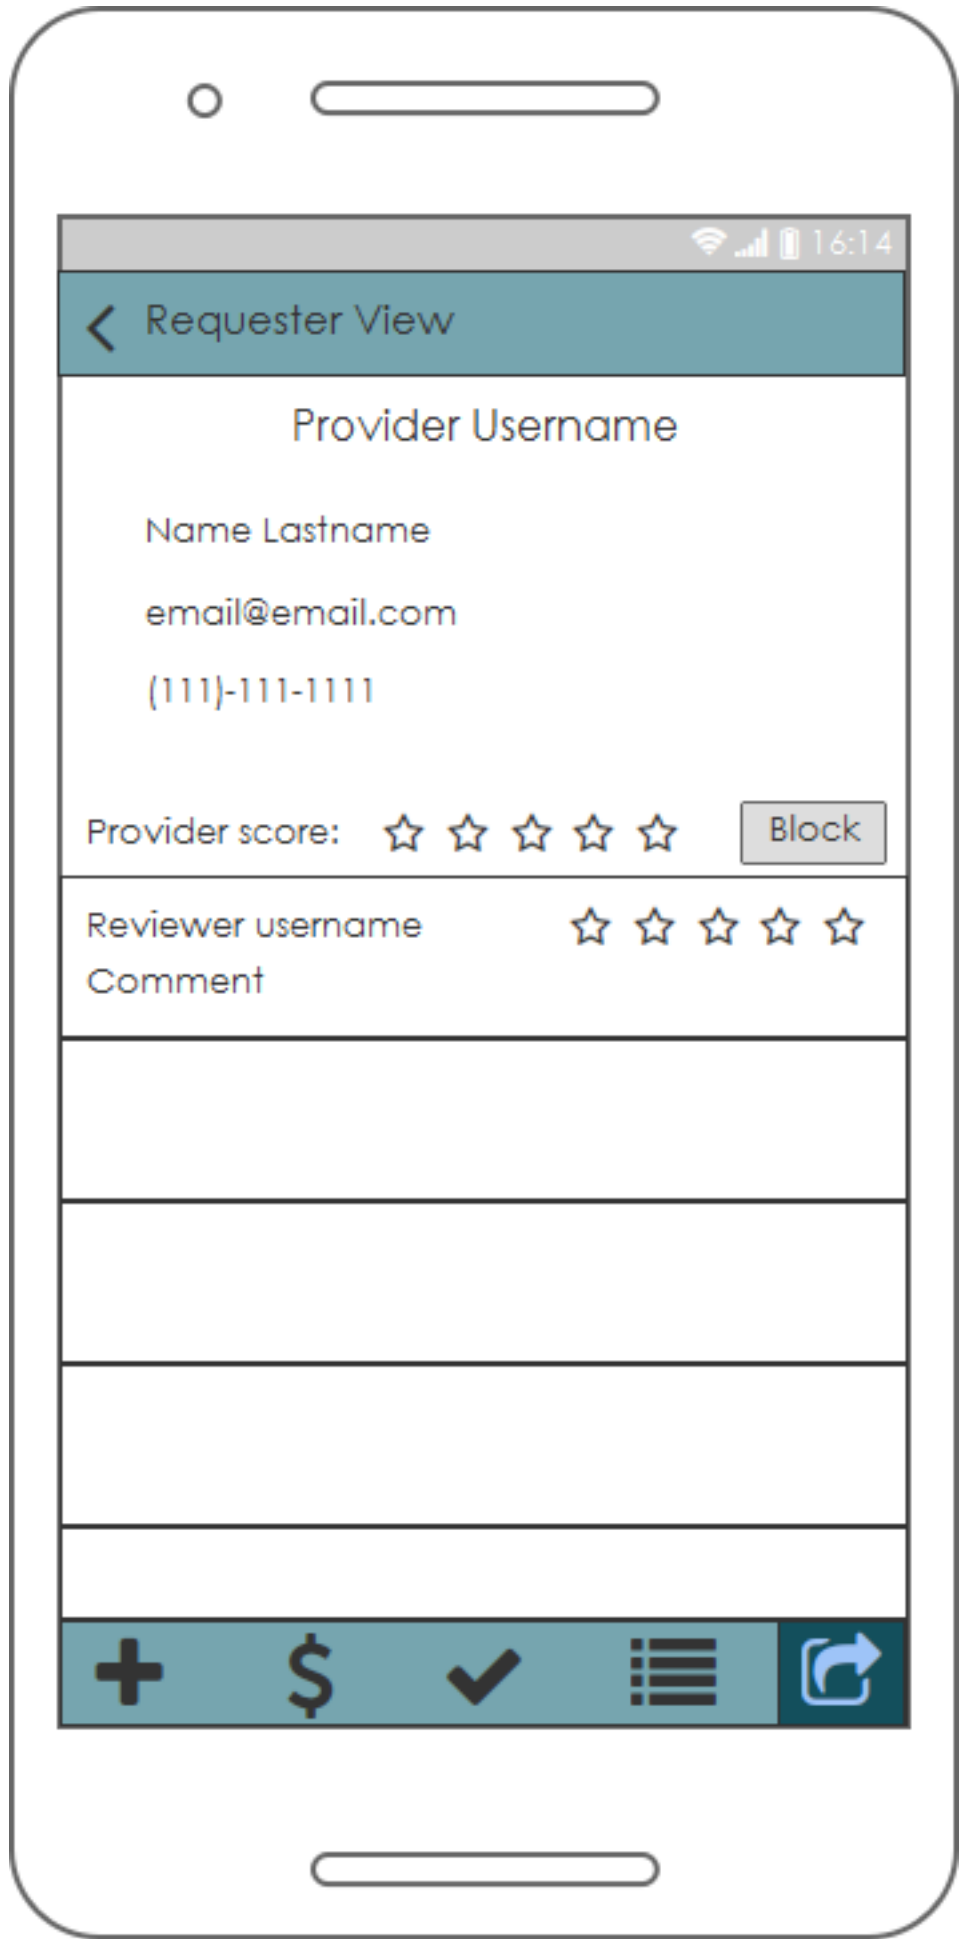

This is the requester's view task page. If the status is bidded, they can accept or decline the bid. If the status is accepted, they can declare the task to be done or reset it to requested. If the task is done, they can rate the provider. If the task is requested, it simply displays all the task info with no additional functionality. The requester can navigate to the "View Photo" and "View Location" screens by selecting the map or photo, respectively.

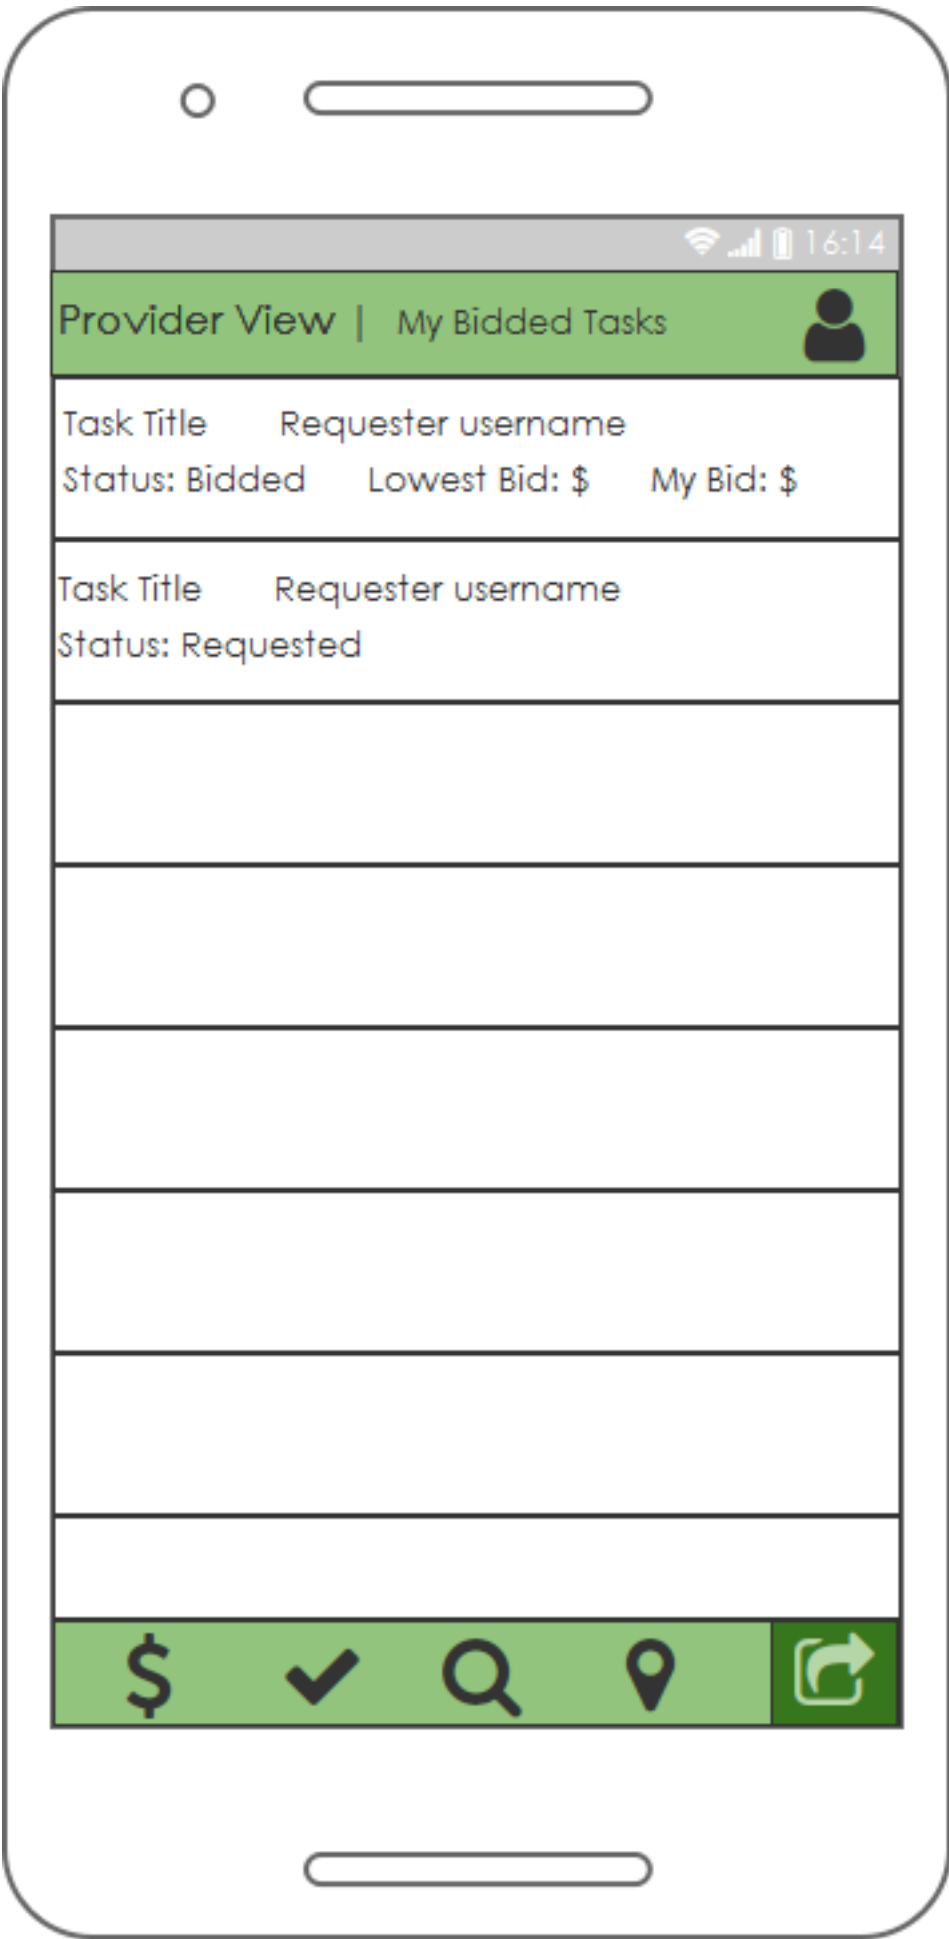

This is the view location/photo screen. This screen can be accessed in both the requester and provider views. The user can navigate back to the "View Task" page. If the user selected the photo and not the map, a larger version of the photo would be displayed here instead.

This is the user's own profile. They can view and edit their contact information here. This screen can be accessed from both the requester and provider interfaces.

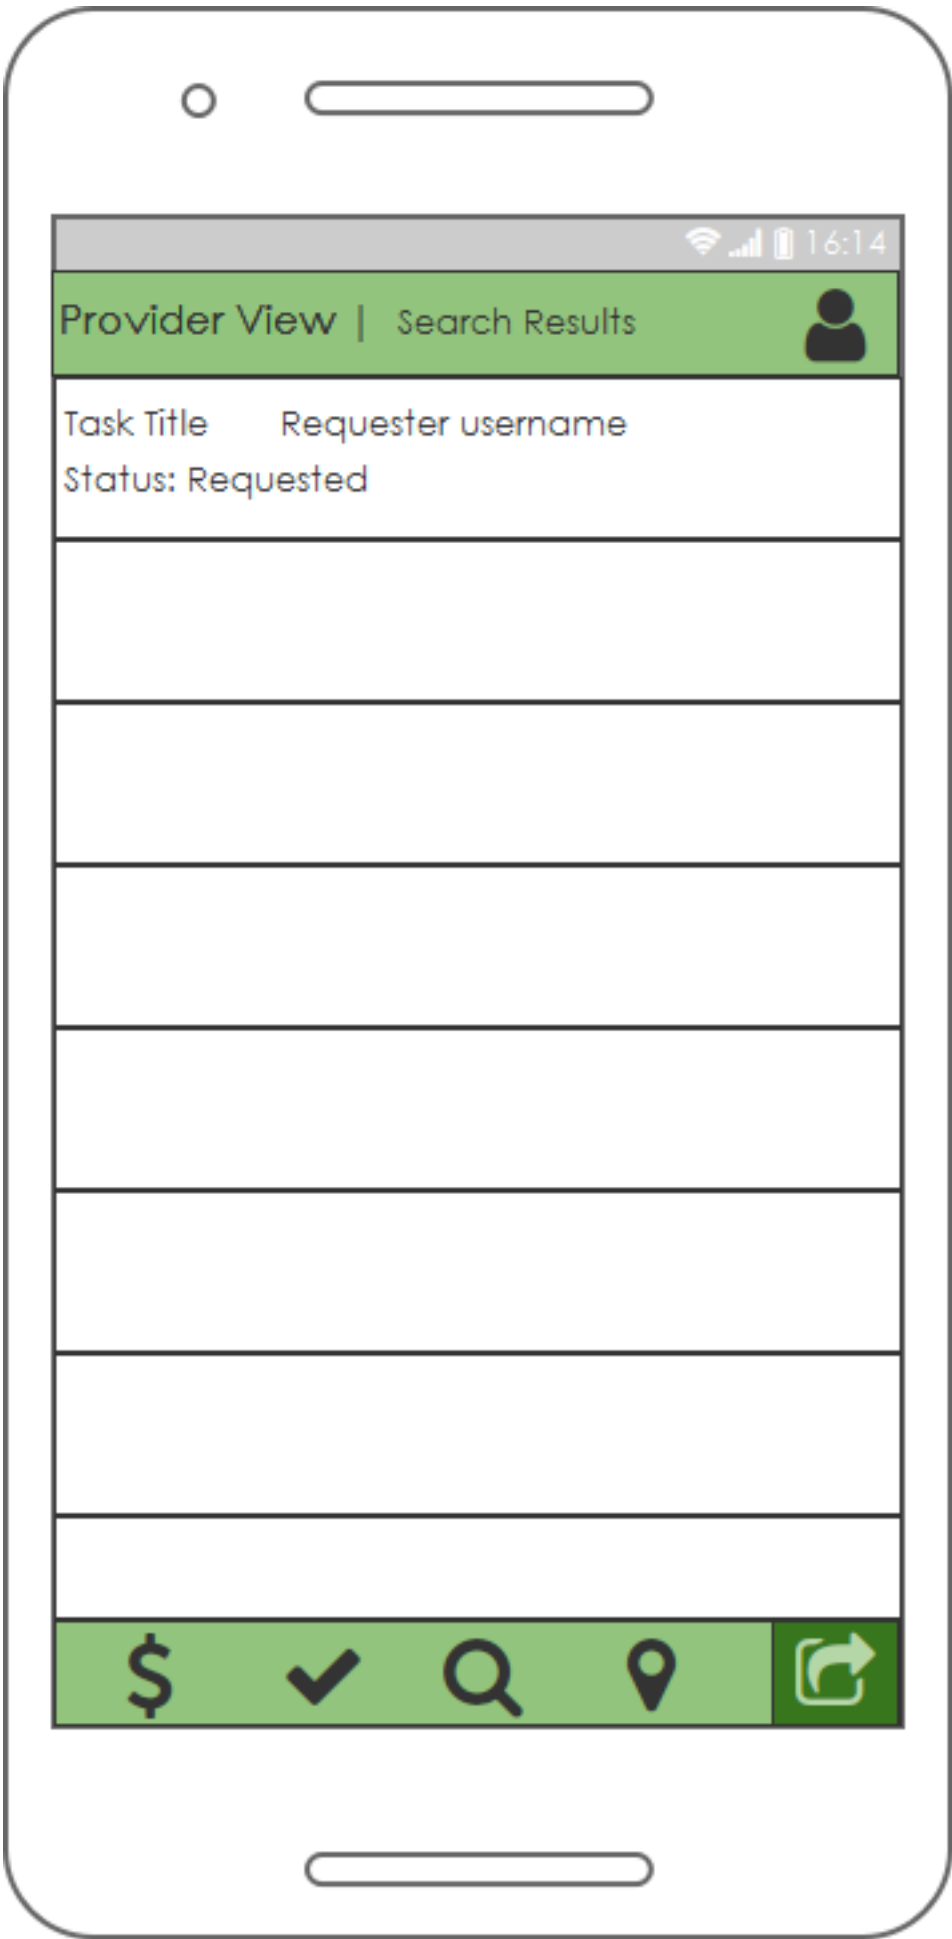

This is the screen for another user's profile. This screen can be accessed from both the requester and provider interfaces by clicking on a displayed username. A user can block or unblock a user from this screen. They can also view this user's contact info, average rating, and individual ratings.

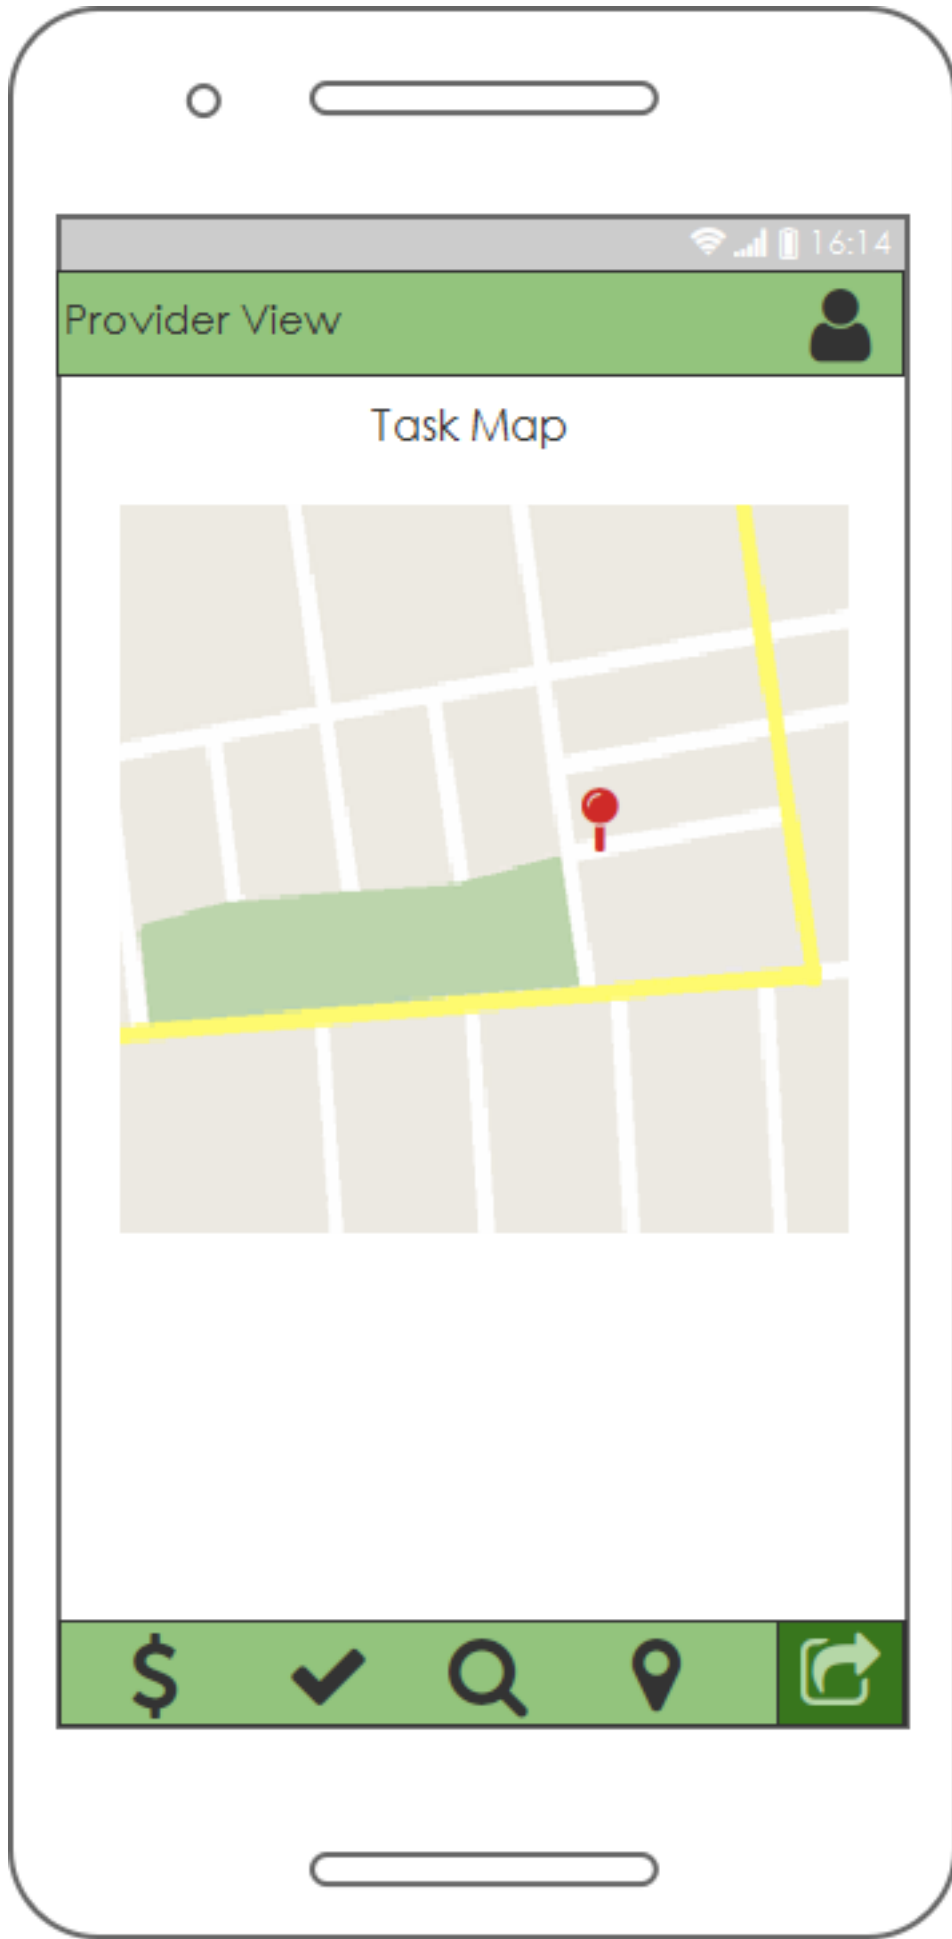

This is the Provider's main interface screen. It displays all tasks that the provider has bidded on. The bottom navigation leads to this page, "My Assigned Tasks", "Search for Tasks", "View Tasks By Location", and switch to Requester view, respectively. The user profile functionalities are accessible via the user icon in the top right corner. Selecting a task from the list brings the user to the "View Task" screen.

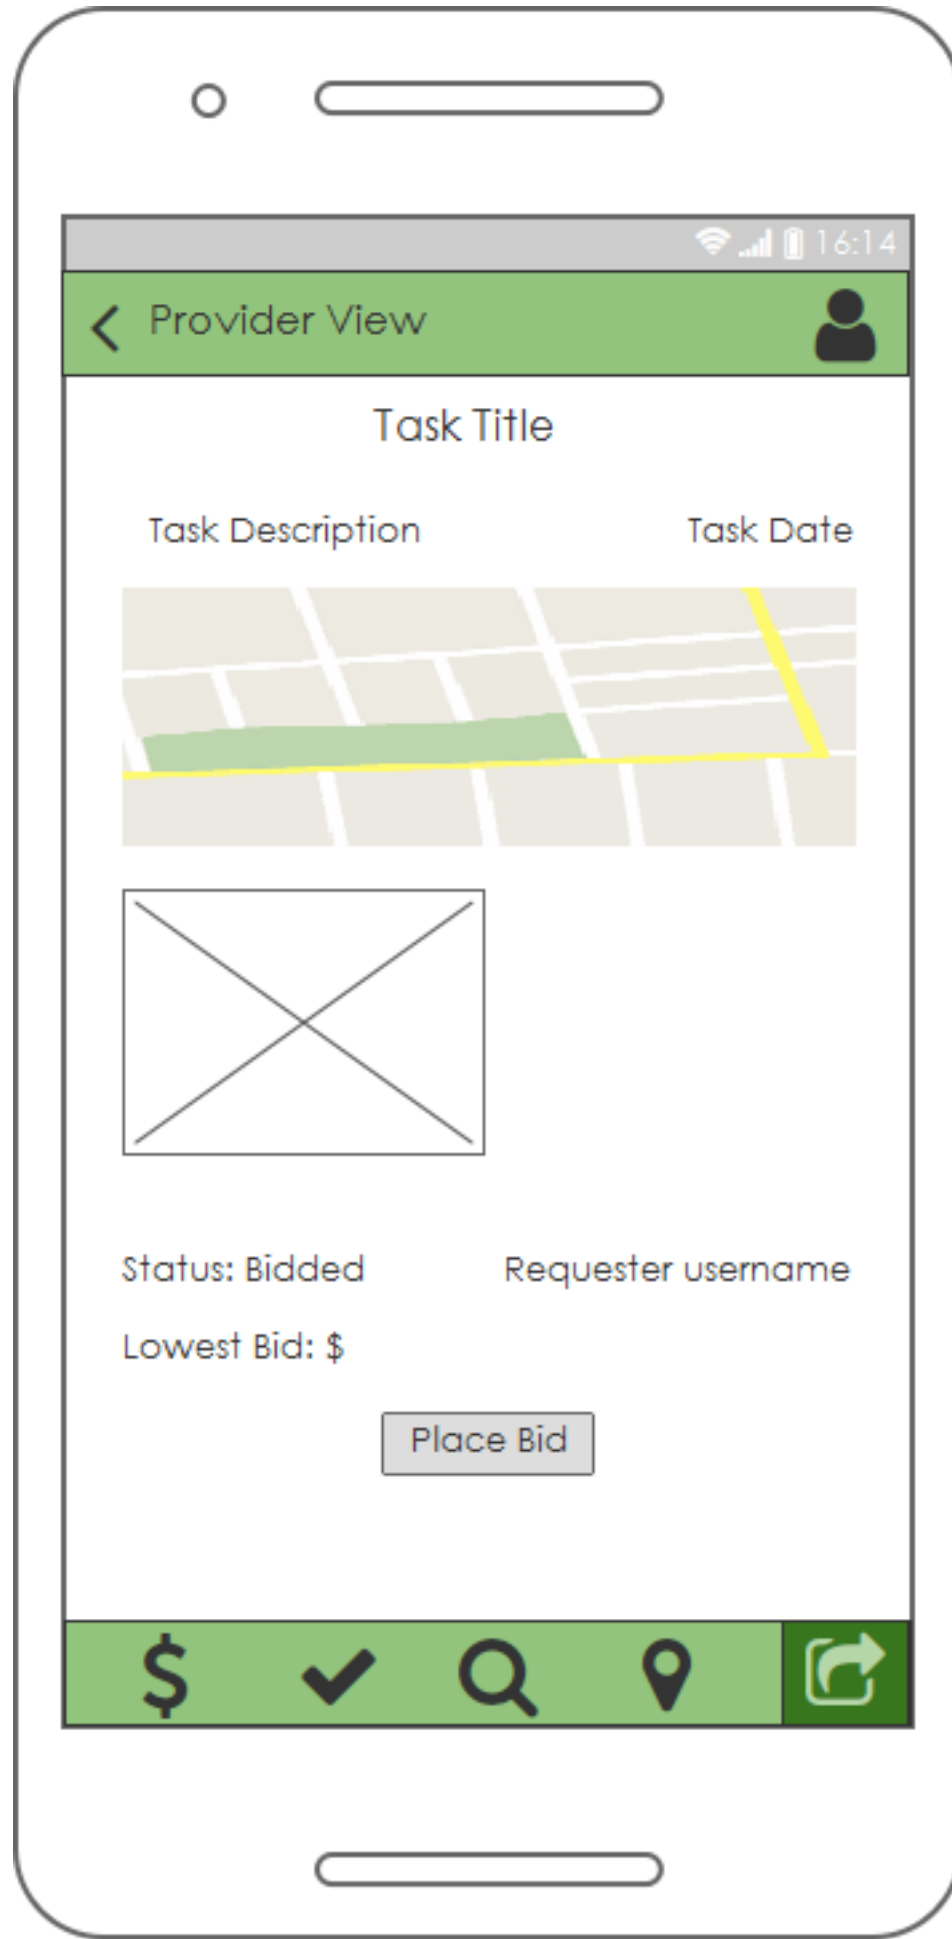

This is the Provider's task search screen. The user is required to enter keywords, separated by spaces, and the results will be tasks with the status: bidded or requester whose descriptions will contain those keywords.

This is the Provider's search result screen. Selecting a task from the list brings the user to the "View Task" screen.

This is the Provider's "Find Task By Location" screen. It displays a map with pins that represent tasks. The map is contained to 5km from the provider's location. Selecting a pin brings the user to the "View Task" screen.

This is the Provider's view task screen. If the task's status is requested or bidded, the provider can place a bid. Once a bid is placed, a provider can cancel it from this screen. Selecting the location or photo will bring up the "View Photo/Location" screen.
